

Ericka Wright

Senior Technical Solutions Manager — Ad Signals & CAPI Implementation

San Diego, CA | ericka.wright@gmail.com | [linkedin.com/in/erickawright](https://www.linkedin.com/in/erickawright)

PROFESSIONAL SUMMARY

Senior Ad Tech professional with 15+ years of hands-on experience implementing, QA-ing, and troubleshooting advertising signals across web and mobile for Fortune 500 brands. Deep expertise in CAPI onboarding, pixel implementation, event deduplication, and signal quality validation across Meta, TikTok, Snap, Google, and 20+ additional platforms. Proven ability to serve as a trusted technical partner for cross-functional teams and external stakeholders — translating complex signal architecture into clear, actionable guidance. Built internal playbooks and governance frameworks for signal implementation, consent management, and signal loss mitigation. Experienced diagnosing discrepancies in data pipelines, attribution gaps, and event mismatches at scale.

EXPERIENCE

Intuit (TurboTax)

Principal Marketing Operations Manager

Aug 2023 – Present | San Diego, CA (Hybrid)

- Led end-to-end CAPI implementation across Meta, TikTok, and Snap for TurboTax and Credit Karma properties — including configuration, event mapping, deduplication logic, and QA validation.
- Architected cross-domain, cross-app signal strategy across 10+ ad platforms (Meta, Google, TikTok, etc.), unlocking \$20M+ in planned joint media spend for FY26 through improved signal quality and attribution accuracy.
- Implemented Google Enhanced Conversions, Google Tag Gateway, Meta Advanced Matching, Meta Advanced Mobile Measurement, and Meta Limited Data Use — ensuring complete, deduplicated, and privacy-compliant event data.
- Drove LiveRamp/Habu Data Clean Room implementation with Snap, TikTok, and Meta; shift to ROAS-based bidding generated \$13.4M in incremental revenue and revealed True CPA to be 24–77% lower than standard pixel-only reporting.
- Led TurboTax's consent experience overhaul across 12 teams, growing consent rates from 25% to 86% — directly expanding the addressable signal pool for paid media.
- Created internal playbooks for signal implementation, QA, and governance — including The Cookie Diet workstream to migrate TurboTax off third-party cookie dependency as Safari ITP and Firefox ETP degraded signal reliability.

Intuit (TurboTax)

Senior Web Analytics Manager

Jun 2018 – Aug 2023 | Greater San Diego Area

- Founding member of the ad tracking governance function — built and scaled signal infrastructure supporting tens of millions in online advertising spend across 20+ pixel and tag integrations.
- Identified and resolved web tracking collisions caused by evolving browser behavior, diagnosing event mismatches and attribution discrepancies that were causing \$500K in incorrect vendor attribution and \$5M in wasted ad spend.
- Architected an Isolated Execution Environment (iFrame sandbox) to prevent third-party scripts from accessing authenticated customer sessions — proactively protecting sensitive taxpayer data from pixel exposure years before FTC scrutiny of the industry.
- Partnered with Security to develop third-party code review processes, ensuring signal integrations met risk and compliance standards before deployment.

BofI Federal Bank (now Axos Bank)

VP, Product Management / VP & AVP, Web Systems

Sep 2015 – Jun 2018 | La Jolla, CA

- Expanded conversion tracking and real-time personalization strategies, driving a 67% increase in conversions and 5% CTR improvement through improved signal quality and event design.
- Led redesign of the flagship web property — 12% traffic increase, 25% bounce rate reduction, two “Best in Class” awards.

Illumina

Web Operations Manager / Senior Web Designer

Aug 2010 – Jul 2015 | San Diego, CA

- Managed web operations for a \$31B global company; drove 400% increase in lead generation and 12% revenue increase through tracking optimization and cart troubleshooting.
- Built and maintained pixel and tag integrations using HTML, CSS, and JavaScript; ran A/B tests via Adobe Target and integrated Marketo lead flows into Salesforce.
